Dear Mr. Weisberg,

Thank you for your letter of January 5, '94. and your kind words. As you requested, I am enclosing the Tip O'Neill transcript from Larry King Live. Please find a letter to the editor I wrote to various newspapers in the Boston area, depicting Tip's position on the conspiracy. Only one newspaper, the Cape Cod Chronicle, a little weekly edition in this small town of Chatham, had the nerve or interest to print it. The Boston Globe and The Cape Cod Times ignored it.

I'm sure you heard about Ed Tatro's heart attack last month. He has to slow down. but I do admire his work

I will make copies of the other transcripts you asked me for and pass them on to you. By the way, Mr Weisberg, I watched the Frontline program on Lee Oswald again, and an eyewitness to the Tippit killing identified Oswald by looking through his rearview mirror in his car. The name of the witness is Jack Tatum, and I couldn't find him in the Warren Report, or the volumes of Hearings. Is he a come by lately to help the case against Oswald, or did he just fall through the cracks during those tumultuous times?

Thank you again, and I will get the other trascripts copied and sent to you.

Sincerely,

Bill Cheslock
